July 7, 2017

Dear Carlmont Community:

On Saturday evening June 24th, 2017 a fire broke out on the roof at the Stogner Gym at Carlmont High School. Belmont Fire reacted quickly, which greatly diminished the damage to the building. Nevertheless, the gym has fire, smoke, and water damage. Emergency restoration work began the same weekend as the fire. The damage is primarily located on a section of the roof over an office and small storage room.

The District has taken emergency measures to begin design of repairs and to secure expedited Department of State Architect approval. Although all of the final work may not be completed before school begins on August 16th, the locker rooms and gym will be open for student use. [Fortunately, the fire did not damage the fitness/weight room remodel and expansion currently under construction].

A special thanks to Carlmont and District staff who immediately rushed to the site.

For questions, please contact Allan France at (831) 600-6314 or allanfrance@att.net.
