New Boundary Proposal

- Only 2 Trustee Areas need to be modified to bring the district into compliance
- Trustee Area A at the north of the district is too large by ~6,500 residents
- Trustee Area D in the East of the district is too small by ~4,300 residents
- All other Trustee areas are less than 2% off ideal, and are legally compliant without change
- This boundary proposal presents a direct switch from Trustee Area A to Trustee Area D of an area of ~4900 residents to the north of Redwood Junction
