School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan. An IPM plan is required if a school district uses pesticides.

IPM statement

It is the goal of Sequoia Union High School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: (Example: Focus on long-term pest prevention)
To provide pest prevention and control in a manner that maintains a safe school and work environment.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

<table>
<thead>
<tr>
<th>Name and/or Title</th>
<th>Role in IPM program</th>
</tr>
</thead>
<tbody>
<tr>
<td>School plant operations staff</td>
<td>Applying pesticides</td>
</tr>
<tr>
<td>Facilities Managers</td>
<td>Supervise; purchasing pesticides, oversight of pest control</td>
</tr>
<tr>
<td>Environmental Health and Safety</td>
<td>Compliance, training</td>
</tr>
</tbody>
</table>

Pest management contracting

☑ Pest management services are contracted to a licensed pest control business.

Pest Control Business name(s): Clark Pest Control, Smith Gopher Trapping, Commercial Tree Care

☑ Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest identification is done by: School staff and pest control contractors

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by School staff and pest control contractors and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Pest control business perform periodic pest monitoring and inspection, including insect and rodent trapping, in kitchens and other outdoor areas, including sticky traps and spike strips. Facilities personnel then determine based on monitoring results whether to apply additional pest control measures, which can include natural/non EPA registered sprays, and or bait stations etc. On some sites anchored bait stations have been strategically placed in exterior areas due to pest exceeding acceptable threshold levels.
Pests and non-chemical management practices
This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

<table>
<thead>
<tr>
<th>Pest</th>
<th>Remove food</th>
<th>Fix leaks</th>
<th>Seal cracks</th>
<th>Install barriers</th>
<th>Physical removal</th>
<th>Traps</th>
<th>Manage irrigation</th>
<th>Other</th>

<td></td>
</tr>
</tbody>
</table>

Chemical pest management practices
If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.)

Broad leaf herbicide for natural turf areas - Turflon Ester Herbicide (active ingredients, triclopyr 3, 5, 6, trichloro-2pyridinyl oxy) EPA Reg. #1754-8 EPA Est. #48498-ca-1acetic acid, butoxy ethyl ester.

Fertilization of natural turf areas - Simple Best Fertilizer (active ingredient, ammonium nitrogen, nitrate nitrogen, phosphate, sulfur, iron) EPA Reg. #2217-643-7001.

Insect trapping - Advion cockroach gel bait (active ingredient, indoxacarb) EPA Reg. #100-1484-AA.

Restroom sanitation - Spartan NABC non acid disinfectant bathroom cleaner (active ingredient, water, alcohol ethoxylate, diakyl dimethyl ammonium chloride, alkyl dimethyl benzyl ammonium chloride) EPA Reg. #5741-18.

Healthy Schools Act
✅ This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48980.3; Food & Agricultural Code Sections 13180 – 13188)

Training
Every year school district employees who make pesticide applications receive the following training prior to pesticide use:
✅ Pesticide specific safety training (Title 3 California Code of Regulations 6724)
✅ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports
✅ Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification
This school district has made this IPM plan publicly available by the following methods (check at least one):
✅ This IPM plan can be found online at the following web address: www.seq.org

☐ This IPM plan is sent out to all parents, guardians and staff annually.
Review
☑ This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: 8/1/2016

I acknowledge that I have reviewed this school district’s IPM Plan and it is true and correct.

Signature: ___________________________ Date: 7/31/2015

1 These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
